

Work training with us!

Stockholm Stadsmission's social enterprise is here for you who wants to get closer to entering the workforce through a work training placement.

We have activities in cafés/bakeries, second hand stores, grocery stores, warehouses/transportation or textile production. No previous experience is necessary other than an interest in the work tasks and that it can bring you one step closer to employment/education.

Together, we develop an individual plan based on your abilities, experiences and interests. To receive a placement, either you or your case worker can contact us for a study visit at arbetstrana@stadsmissionen.se or by telephone: 08-6842 3493, 08-6842 3406

Find out more about our activities at stadsmissionen.se
